

Biggby Coffee

Store Design

NJB Architects, Inc. is proud to be

a Corporate approved provider of architectural services for your new Biggby Store. Our services include feasibility layouts, drive-thru layout and site modifications, engineering including HVAC, plumbing, and electrical design, façade and exterior improvements, interior layout, and construction drawings. We will work with you and Biggby Global Development to design a store that optimizes the unique qualities of your specific location while incorporating your personal preferences, Corporate image, and efficient function. We strive to simplify the design process by seamlessly coordinating site conditions, Biggby standards and complex codes, providing initial layouts for most locations within one week.
