Who We Are...

our individual and collective values define what NJB Architects is all about. After years of practice in large 'corporate' firms, Terry and Lisa came together with a vision for a new firm with a focus on personal relationships. Mutual respect makes for an effective project team. Quality, professionalism and client service are valuable attributes that are brought to the table on each project, from the largest commercial development to the smallest residential design.

We are proud members of the American Institute of Architects and NJB Architects is a certified Women's Business Enterprise.

NJB Architects, Inc. Established, 2005.
